FORTIFIED WISE™ TRAINING

The Insurance Institute for Business & Home Safety (IBHS) has partnered with the National Tornado Summit to offer an exclusive opportunity for conference attendees to participate in FORTIFIED Home training on February 26th.

This one-day workshop will thoroughly train you on how to demonstrate a solid understanding of FORTIFIED building principles, construction practices and verification requirements. Additionally, the workshop will facilitate advanced knowledge of the FORTIFIED Home™ building program and trends affecting coastal states, Great Plains states and the industry at large. The FORTIFIED program is based on more than 20 years of building science research, which is the foundation for its professional certifications. FORTIFIED provides the strongest and most critical building standards for high-risk areas in the plains and coastal states.

WHO SHOULD ATTEND?

- Insurance Professionals
- Building / Code Officials
- Product Manufacturers
- General / Building Contractors
- Architects / Engineers
- Real Estate Professionals

THE TWO CERTIFICATIONS BEING OFFERED ARE:

- **FORTIFIED WISE™ Associate**
* Prerequisites: None
- **The FORTIFIED Wise™ Professional**
* Prerequisites: Must possess a current license as a General Contractor, Building Contractor, Residential Contractor, National Council of Building Designer Certification (NCBDC), Architect or Professional Engineer

These training sessions will ONLY be available to NTS attendees and are offered for only \$75 with a paid NTS **early bird** registration, which is a tremendous value. If you choose to attend the IBHS FORTIFIED WISE™ training class you will not only leave with an IBHS FORTIFIED Wise training certificate, but you will also get your choice of 40 different educational sessions at the Tornado Summit along with outstanding networking opportunities. Space is limited to 40 participants so be sure to register early!
